

MATERIAL HANDLING ENGINEERING INDEX--1961
(Page Number Follows Date)

A. Advancement (personal career)

1. A career in material handling -- do you fit in?Feb. 75
2. Controlling material distributionSept. 62
3. Finding your place as material flow manager.Dec. 66
4. How material handling aids your company's operationMar. 65
5. Management's ideal manager of material flow.Oct. 64
6. Material control and the balance sheet.Aug. 54
7. Material control and the paperwork problemJuly 54
8. Material control from the systems viewpoint.Apr. 63
9. Material handling --a control function.June 62
10. Prepare for a bright future.June 17

B. Assembly Handling

11. Handling--assembly's twin brother.May 58
12. Progressive assembly by conveyor.Feb. 66

C. Bulk Handling

13. Curb service speeds sugar delivery.Sept. 58
14. Filling a bin deep inside a buildingFeb. 65
15. Four ways to handle bulk sugar.Feb. 64
16. How pneumatic conveying aids safetyDec. 54
17. Match material to system for successful pneumatic conveyingApr. 60
18. Pneumatic system cuts chemical costs 22%Apr. 62

MATERIAL HANDLING ENGINEERING INDEX--1961
(Page Number Follows Date)

A. Advancement (personal career)

1. A career in material handling -- do you fit in?Feb. 75
2. Controlling material distributionSept. 62
3. Finding your place as material flow manager.Dec. 66
4. How material handling aids your company's operationMar. 65
5. Management's ideal manager of material flow.Oct. 64
6. Material control and the balance sheet.Aug. 54
7. Material control and the paperwork problemJuly 54
8. Material control from the systems viewpoint.Apr. 63
9. Material handling --a control function.June 62
10. Prepare for a bright future.June 17

B. Assembly Handling

11. Handling--assembly's twin brother.May 58
12. Progressive assembly by conveyor.Feb. 66

C. Bulk Handling

13. Curb service speeds sugar delivery.Sept. 58
14. Filling a bin deep inside a buildingFeb. 65
15. Four ways to handle bulk sugar.Feb. 64
16. How pneumatic conveying aids safetyDec. 54
17. Match material to system for successful pneumatic conveyingApr. 60
18. Pneumatic system cuts chemical costs 22%Apr. 62

D. Plant Planning

19. Good dock layout--a must in handling Jan. 44
20. Make the building fit material handling Oct. 53

E. Material Handling Management and Financial

21. A BHA for better status Aug. 52
22. Cost accounting for material handling Dec. 62
23. Establishing work standards Oct. 58
24. Exposing the phony consultant Mar. 55
25. Good handling is safety insurance Dec. 49
26. How material handling is organized Oct. 71
27. How to count your profits before they hatch May 54
28. Know your C/E ratio for palletless handling July 49
29. MHEDA training center course June 20
30. Management's ideal manager of material flow. Oct. 64
31. Material control and the balance sheet Aug. 54
32. Putting the control concept into practice June 63
33. Travel charts point out MH benefits Sept. 51
34. What's your handling information IQ?. Apr. 57
35. White elephants they couldn't hide June 55

F. Material Handling Maintenance

36. A million boxes a day. Feb. 80
37. How they're handling Apr. 81
38. How they're maintaining Aug. 59
39. Grab that maintenance authority! Aug. 62
40. How they're handling ...safely Dec. 58

G. Material Control

41. Computer controls blast furnace	Aug.	46
42. Computers and controls make systems	Aug.	45
43. Control in-process flow automatically	May	67
44. Industrial TV saves steps in giant mix	Feb.	88
45. Just enough paperwork for good warehouse control	Nov.	75
46. Material control and the paperwork problem.	July	54
47. Material control--the key to manufacturing.	May	48
48. Material handling -- a control function	June	62
49. Merging products get automatic right-of-ways.	Oct.	62
50. Modular controls govern flour flow.	Aug.	48
51. Organizing for efficient warehouse control.	Nov.	72
52. Store accurately with conveyors, standard boxes, punch cards.	Nov.	81
53. Tipping the balance sheet your way.	Aug.	56
54. Total line management by computer.	Aug.	50

H. Miscellaneous

55. A nearly universal truck attachment	June	66
56. You hurtin' or just hollerin'?	Feb.	9

I. Order Picking

57. Circulating carts remember their stops	Nov.	86
58. Comparative analysis of order picking systems	Apr.	53
59. Giant order filler fights high distribution costs.	June	58
60. Just enough paperwork for good warehouse control	Nov.	75
61. More space with conveyors	Feb.	63
62. New excitement--the automatic warehouse	Nov.	65
63. Order wine cartons by pushbutton	Feb.	67
64. Stacker crane moves orders fast	June	78
65. Tractors answer electronic roll call	Mar.	84
66. What's next in automatic warehousing?	Nov.	70

J. Packaging

67. Do incoming materials come in the package best for you? Jan. 42
68. How they're handling Apr. 80
69. Keep up with the handling/packaging/marketing speedup. May 80
70. Packaging better--not cheaper Sept. 60

K. Production Handling

71. A shape of things to come? May 62
72. Automatic pallet loading--is it for you? Mar. 80
73. Engineer weighing into handling Feb. 82
74. Evaluation of work station layout June 70
75. Even ride carries bowling pins to plastic dips Aug. 66
76. How they're handling Apr. 81
77. How they're handling July 66
78. Intelligent tractor does just what it's told Sept. 74
79. Monorail system speeds paper rolls to shipping Sept. 55
80. New production process makes large plastic products July 63
81. 10 steps to safe lifting Mar. 58

L. Equipment Purchasing

82. A buyer's map to the equipment jungle Feb. 57
83. Buy that extra safety Dec. 45
84. Equipment design battle: manufacturer vs. you May 70
85. Has LP-gas been oversold? Apr. 72
86. Watch...wait...liquidate! July 41

M. Receiving

87. Engineer weighing into handling	Feb.	82
88. Good dock layout--a must in handling	Jan.	44
89. Good receiving is better with plenty of space	Jan.	58
90. How they're receiving and storing	Jan.	64
91. How to select a returnable container	Jan.	38
92. Material handling's starting point	Jan.	37
93. Missile parts come in bits and pieces	Feb.	68
94. Receiving and the follow through	Jan.	60

N. Scrap Handling

95. Choose the right scrap handling system	May	75
96. Efficient scrap handling spells profit	Mar.	63
97. How they're handling . . .safely	Dec.	58

O. Shipping and Distribution

98. Automatic unitizing and palletizing	Mar.	78
99. Controlling material distribution	Sept.	62
100. Engineer weighing into handling	Feb.	82
101. How they're handling	Mar.	86
102. How they're handling...safely	Dec.	59
103. New production process makes large plastic products	July	63
104. No-damage shipping with inflatable dunnage	Apr.	76
105. Packaging and shipping ideas	July	68
106. Packaging and shipping ideas	Aug.	68
107. Packaging and shipping ideas of the month	Apr.	82
108. Same ICBM package is reusable/expendable	Mar.	76
109. 10 steps to safe lifting	Mar.	58

P. Shows

110. MHI Eastern States Show-Philadelphia-May 9-11.	Apr.	29
111. MHI Pacific Coast Show	Feb.	70
112. PMMI packaging show	Oct.	14
113. The industrial volcano--San Francisco	Feb.	61

Q. Material Handling Systems

114. A continual search for better handling	July	44
115. Computers and controls make systems	Aug.	45
116. Electronic cop speeds Navy warehouse traffic	Mar.	70
117. Evaluating and planning a mechanization program	May	51
118. Fork trucks do everything but trample the grapes	June	69
119. How to make use of the systems approach	Apr.	65
120. Material control from the systems viewpoint	Apr.	63
121. Mechanized systems breaks tradition to cut costs	Apr.	68
122. Palletizing brings benefits beyond price	July	52
123. Run system, spot trouble from one point	Oct.	80
124. Store quickly, accurately with conveyors, standard boxes, punch cards.	Nov.	81
125. What warehouse system should you use?	Nov.	62
126. Why buy a system?	Jan.68	

R. Warehousing and Storage

127. Automatic unitizing and palletizing	Mar.	78
128. Bin or slot storage -- one is better for you.	Jan.	47
129. Drug warehouses serve Bay Area	Feb.	69
130. Everything moves in storage system	Oct.	57
131. Found--50% more space	July	48
132. Handle 3 million premiums a year	Feb.	62
133. How many warehouses and where?	Nov.	59

134. How they're handling	Mar.	87
135. How they're receiving and storing	Jan.	65
136. How they're warehousing	Nov.	84
137. How to operate a safe warehouse	Dec.	52
138. Is a basic storage unit possible?	Jan.	40
139. Keep storage to a minimum	Jan.	55
140. Organizing for efficient warehouse control.	Nov.	72
141. Storage quickly, accurately with conveyors, standard boxes, punch cards	Nov.	81
142. Versatile equipment at the district warehouse	Nov.	78

S. Yard Handling and Storage

143. Cut costs with indoor/outdoor handling	Mar.	74
144. How they're handling	Apr.	80
145. How they're handling...safely.	Dec.	60
146. How to select a clamshell bucket	July	58
147. Long loads no problem	Jan.	57
148. Mobile equipment speeds yard receiving	Jan.	53
149. Storing at random in a large yard	June	76
150. Today's yard storage brings new benefits	Jan.	49
151. Trucks, tractors, and loaders--versatile yard workers	Sept.	68

CLASSIFICATION BY EQUIPMENT

(numbers correspond to those assigned to
titles listed by function in index)

Attachments--45, 55, 64, 79, 81, 90, 101, 108, 142, 143, 147, 148, 150, 151, -

Automatic machines -- 11, 54, 71, 95, 121, -

Batteries and chargers--39, 101, --

Bins--13, 18, 44, 50, 80, 95, 123, 148--
 Bulk handling equipment--13, 14, 15, 16, 17, 18, 40, 44, 73, 123, 146,--
 Casters and wheels--78, 80, 93, --
 Closure and unitizing equipment--90, 98, 104, 121, --
 Communications equipment--44, 51, 148
 Computers-- 7, 33, 41, 42, 43, 54, 58, 59, 62, 66, 114, 116,--
 Containerization--150--
 Containers, in-plant--38, 42, 58, 67, 76, 80, 90, 91, 93, 95, 96, 116, 128,
 129, 138, 139, 143,--
 Conveyors, belt or chain--32, 42, 43, 44, 49, 52, 54, 57, 58, 59, 62, 63, 72,
 74, 75, 79, 83, 84, 90, 95, 101, 114, 121, 126, 137,--
 Conveyors, roller, gravity-- 12, 36, 40, 43, 49, 52, 59, 61, 62, 63, 72, 74, 76,
 79, 83, 84, 98, 106, 114, 116, 123, 126, 129, 137,--
 Conveyors, in floor--57, 58, 76, 132,--
 Conveyors, overhead--37, 39, 76, 79, 83, 94, 136,--
 Conveyors, pneumatic--13, 14, 15, 16, 17, 18, 54,--
 Cranes, overhead--64, 78, 81, 83, 84, 90, 94, 130, 139, 149, 150,--
 Cranes, mobile--38, 40, 90, 121, 147, 150,--
 Dock accessories--19, 64, 89, 136, 139,--
 Electric, electronic controls--16, 32, 41, 42, 43, 49, 50, 52, 54, 59, 61, 62,
 66, 63, 65, 73, 75, 76, 78, 79, 83, 114, 116, 121, 123,--
 Front end loaders--95, 148, 151,--
 Hoists-- 40, 64, 81, 83, 84, 90, 94, 108,--
 Instruments and testing devices--70, 121,--
 Magnets--40, 94, 95,--
 Maintenance equipment--36, 38, 81, 95, 137,--
 Marking and labeling equipment--54, 69, --
 Packaging machinery--49, 69, 84,--
 Packaging supplies-- 37, 52, 62, 67, 69, 70, 105, 108, 114,--
 Palletizers--38, 61, 66, 72, 98, 101,--

Pallets--28, 38, 51, 64, 90, 94, 98, 104, 106, 107, 121, 122, 131, 132, 142, 151,--
 Personnel carriers--37, 38, 40,--
 Plant layout devices--20, 33, 50, 74, 128,--
 Portable elevators--78,--
 Power--72, 75, 85, 143,--
 Protective materials--37, 70, 104, 105, 108, 150,--
 Racks, storage, live--52, 62, 66, 63, 114, 130,--
 Racks, storage--51, 52, 58, 59, 62, 66, 64, 76, 90, 94, 114, 116, 128, 129,
 131, 132, 136, 139, 150,--
 Safety devices-16, 19, 25, 40, 55, 83, 81, 85, 108, 137,--
 Scrap handlers--95, 148, 150--
 Sensing devices--116,--
 Shipping containers--70, 91, 98, 107, 114, 118, 138,--
 Shipping vehicles--15, 19, 83, 89, 90, 104, 105, 106, 114, 118, 121, 143,--
 Transfer devices--76, 139,--
 Tires--143,--
 Tractors--45, 65, 78, 90, 151,--
 Trucks, hand--57, 58, 76, 78, 90, 95, 114, 132, 136,--
 Trucks industrial-- 23, 28, 35, 36, 37, 39, 40, 45, 51, 55, 58, 59, 61,
 62, 64, 65, 74, 76, 83, 84, 85, 90, 95, 96, 101, 104,
 107, 108, 118, 121, 126, 131, 132, 136, 137, 142, 143,
 148, 149, 150, 151,--
 Vehicles loading devices--13, 14, 15, 101, 146--,
 Walkies--84, 90, 93, 118,--
 Weighing devices--73, 95, 139,--
 Work positioners--71, 79, 121,--
